ALL WHEELS RECOVERY ENERGY
SOME DO IT BETTER...

DRI ECOFRESH™
Energy Recovery Wheels

F2 200 SERIES
High Selectivity:
EcoFresh Energy Wheels F2 200 series use special, Selective Zeolite Desiccant coated on aluminum substrate and this results in high latent recovery and control on cross contamination.

Aluminium Substrate:
The aluminium substrate eliminates any fire risks and results in high sensible recovery and high structural strength.

In-built purge sector eliminates cross contamination:
Purge section provides strict separation of air flows, preventing carryover of bacteria, dust and pollutants from exhaust air to supply air. Purge section and sealing system limit cross contamination to 0.04% of the exhaust air concentration by volume.

Non Contact Labyrinth seal:
✓ No wear and tear.
✓ Effective sealing.
✓ Long life.
✓ Brush seal for wheels upto 2200 mm.

Structural Rigidity, Hardened Edges and Innovative Manufacturing Design:
✓ State-of-the-art winding technology and adhesives give EcoFresh rotors high structural strength.
✓ Wheel Edges hardened as standard to suit marine coastal application needs.

Highly Polished Surface:
Vertical run out less than 1 mm per 1000 mm resulting in extremely low leakage across the central divider seals.

Robust spoke Structure.

Highest Recovery Efficiency Ratio (RER) in the industry

Industry’s highest recovery/ performance:
✓ High Desiccant loading / coating.
✓ Nearly equal sensible and latent recovery, thus, comparatively higher total enthalpy recovery.
✓ Higher performance, low pressure drops.
✓ Laminar airflow due to thin aluminium substrate and uniform desiccant coating.
✓ Superior airflow characteristics.

Wide Range & Additional options:
✓ Sorption Wheels & DRI also offers Condensation & Enthalpy Wheels.
✓ Customized Flute height and Rotor depth options.
✓ Cassette as well as Rotor options.
✓ Standard and Customized options.
✓ 500 mm to 5000 mm (dia.)
✓ Easy retrofit options.
✓ Segmented and Non Segmented options.
✓ Controls Package available.
Why DRI?

- Largest global producer of Enthalpy Wheels.
- #1 in performance... worldwide.
- First choice of Engineers and Consultants globally.
- Eurovent Certified Wheels.
- DRI also participates in the AHRI Certification Programme.
- Integrated Rotor manufacturing facility.
- World Class Rotor test facility\(\text{Enthalpy as well as Desiccant}\).

Selection Software Available

Fully Integrated Manufacturing Plant
DRI has its Airgineers spread out world over.

DRI Offices

- USA
- Canada
- Switzerland
- UAE
- India
- Korea
