

Evaporative Cooling Modules *for* AHUs

FIRE RETARDANT

DRI™ EcoCool™
Evaporative Cooling Modules

CNC
Manufactured
Compact module

Incorporating *EcoCool*/ Fire Retardant
Evaporating Cooling Pads

Innovative Air Solutions

Evaporative Cooling Modules for AHUs

Incorporating the new Fire Retardant EcoCool Evaporative Cooling Pads:
Special flame retardant material ensures total safety in a hazardous environment.

High Water Retention:
Engineered from cross-sectional, specially treated fluted media capable of absorbing and retaining more water to provide maximum cooling efficiency. EcoCool Evaporative Cooling Pads take on more water almost 20 to 40% higher amount of water than many other international pads.

Long and extended life:
Special protective edge coating lessens build-up of dust particles, thus, enhancing the life of pads.

High Structural Strength:
Stiffening and rot resisting agents provide exceptional structural strength.

High Cooling Efficiency:
Pads are designed, engineered and manufactured from a specially treated inorganic material which ensures exceptionally high evaporative efficiency.

Easy Maintenance:
Low and very easy maintenance.

Low Operating Cost

DRI EcoCool™

Evaporative Cooling Pads (ECPs)

EcoCool Cooling Modules for AHU's

Series

(ECM 600-600 to 2400-2400)

Engineering Data Sheet

for Standard Cooling Modules

S No.	Model Number	A	B	C	D	ECM - 60% D = 100		ECM - 85% D = 200		ECM - 95% D = 300

ECM 2100-2100 TO ECM 2400-2400	370 Wt, 230v / 1PH / 50 HZ

Make US your HVAC Partner

⊙ Indoor Air Quality ⊙ Humidity Control ⊙ Energy Recovery

Our **Green Building** Products

- ⊙ Heat Recovery Wheels (HRWs)
- ⊙ Energy Recovery Ventilators (ERVs)
- ⊙ Treated Fresh Air Units (TFAs)
- ⊙ Dedicated Outdoor Air Systems (DOAS)
- ⊙ CO₂ Sensors
- ⊙ Evaporative Cooling Pads
- ⊙ Arctic Evaporative Cooler
- ⊙ Evaporative Cooling Modules for AHUs and Chillers

DESICCANT ROTORS INTERNATIONAL (DRI) is the fastest growing Indian HVAC&R company with global footprints providing end to end solution for fresh air treatment. DRI products and systems are maintaining IAQ in prestigious buildings all over the world : Beijing Airport, China; Olympia Technology Park, India; Thai Parliament, Thailand; National Theater, Malaysia; Pacific Controls, Dubai; K.E.M. Hospital, Australia; The City, Brazil; University of North Carolina Science & Media Building, USA . . . and many more.

DRI products help to achieve LEED and other energy certifications DRI's "Green" products help to optimize energy performance of air conditioning systems resulting in :

- ⊙ Considerable reduction in installed tonnage.
- ⊙ Reduction in utility bills for entire life cycle.
- ⊙ Enhanced IAQ and productivity.
- ⊙ Reduced health risks.
