# Antibacterial Evaporative Cooling Pads

ASTEM E-2149-13a Certified

- Ecocool introduces **Anti-bacterial Pad** which fights & protects against water based bacteria which can cause water borne diseases.
- CHEMICAL impregnated into pad prevents formation of major bacteria on the surface of the pads, there by ensuring a healthy airflow & in turn protecting the airwasher/cooler especially in places where health requirement is supreme.

## How does Evaporative Cooling Works ?

### Benefits of EcoCool Anti-Bacterial Pads

- Treated pad shows significant & consistent reduction in water based bacteria, proving the **Eco-Cool Anti-bacterial Pad** to be highly effective.
- Decreased bacterial count indicates that the air entering is cleaner, fresher & more hygienic.
- On account of reduced bio load there will be a reduction malodorous generated by bacteria.

### Direct Value Benefits of EcoCool Anti Bacterial

- Improves air quality making it safer to breathe
- Provide sustained hygienic air quality thereby improving user experience
- Reduced bioload on the pad making it self combating against bacteria
- Malodour control
