EcoCool®

Evaporative Cooling Pads

- **Effective Cooling:** Lowers temperature at minimal energy cost.
- **Structural Strength:** *EcoCool* is synthesized with specialized stiffening and anti-rot chemicals. The specially engineered fluted structure prevents sagging and resists clogging.
- **Higher Water Retention (Wettability):** Engineered from cross-sectional, specially treated fluted media capable of absorbing & retaining water to provide maximum cooling efficiency.
- **Energy Efficient:** Allows higher cooling with lower air volume, pads are over 80% efficient.

- **Long and Extended Life:** *EcoCool* pads have a long life due to special protective edge coating.
- **Weight:** *EcoCool* pads are designed to take on more water on the same amount of space. It takes in almost 20 to 40% higher amount of water than some of the internationally made pads.
- **Strong Gluing:** Cross Section of the *EcoCool* Evaporative Cooling Pads are glued with special glue. The glue does not deteriorate even after coming contact water for years.

ARCTIC™

Spot Cooler

Benefits

- Comfortable habitation and working environment
- High productivity
- Lower Absenteeism
- Lower operating cost (approx. one-tenth of the aircon cost)
- Lower Maintenance

Cool Large Areas Economically™

with

Ideal for: • Offices • Workshops • Cold storage • Shop floor • Green house • Shopping malls • Manufacturing units

Manufactured & Marketed by :
