

Innovative Air Solutions

DESICCANT ROTORS INTERNATIONAL PVT. LTD.

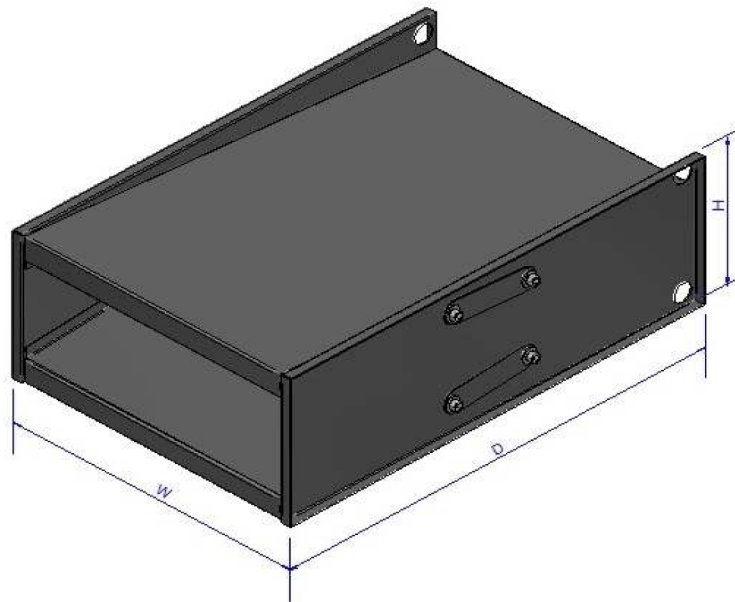

TECHNICAL SPECIFICATION

Gas Phase Filter – “V” Filter

THE **ECCSCRUB** “V” FILTERS COMES WITH THE FOLLOWING OUTSTANDING FEATURES

- * **High efficiency and reliability**
- * Made of stainless steel 304 frame work
- * Media – Impregnated Activated Carbon
- * The most reliable molecular filter for high efficiency
- * Designed for higher air flows thus requires much lower face area.
- * Very low pressure drops
- * Longer service Life
- * Totally corrosion resistant
- * Controls Air Borne molecular contaminants
- * Can be stacked side by side and or up/down to make the necessary sizes
- * Variety of chemical combinations for wider applications

STANDARD SIZES:

W	H	D
300	150	450
300	300	300
600	150	450
600	300	300
300	600	300

Sizes are indicative only and can be customised to suit customer's requirements.
